Covid-19 pandemic highlights inequalities in education

How to achieve inclusive education now and in the future?

1 **Direct funding**
Millions of people around the world must have access to education

2 **Transform education**
Governments have to exchange information and elaboration of programs

3 **Apply universal design**
Inclusive systems allow the development of the potential of each learner

4 **Empower teachers**
All teachers must be prepared to teach all students

5 **Learning from peers**
We have to work to build a collaborative world collaborative world
